Hello Alejandro,  
Please look into this. Thank you.

It's been a while since I've heard anything last email was you were going to be sending somebody out to look at the situation I don't know if that's ever happened but nobody ever contacted me awls I can see is our situation is getting much worse we now have three cars living outside our house a motorhome and also engaging with the semi trucks that now can only park directly across the street from our house or directly beside our house again I'm truly dumbfounded by the fact that every surrounding area has the signs up that they can't park there but our little area does not I would love an explanation on why the other districts do not allow this but your district is allowing this to happen and what's a 95% residential area and allowing these encampments to grow and prosper
